

ANDY'S CHAPTER OF HOPE

Leukemia was a virtually unknown disease to Andy Hanson and his family, until June of 1994. It was then that this 22 year-old athlete was diagnosed and began his fight to conquer leukemia. Andy was fortunate to win his battle, but there are still many that don't survive a leukemia diagnosis.

Andy decided he could help other leukemia victims by raising money for research and providing a support system for people affected by leukemia. The result is a McHenry County Chapter of the Leukemia Research Foundation – *Andy's Chapter of Hope*.

Megan Cooper was lost to leukemia at the age of eight on January 29, 1993. While Megan was taken from us, her spirit lives on through all of the lives she touched before, during and after her battle. We honor Megan and all who have been lost to leukemia by raising funds to find a cure for this devastating disease. Please help us to find a cure so other families do not have to suffer the loss of a loved one!
